

KIWO® CleanWipes EL

Abrasion-resistant and lint-free wipes for all kinds of application in the field of SMD electronic cleaning

SIMPLE
CLEANING

Product benefits

- convenient handling
- ready to use immediately
- re-sealable
- no tiresome top-up
- the right wipe for every application

Small dispenser – big effect

Need to save time using cleaning wipes? KIWO CleanWipes EL are the answer!

Wear-resistant and lint-free, these wipes are impregnated with the optimum cleaning fluid for all kinds of application.

Remove sealing foil, draw the first wipe into the lid aperture, close lid and you're all set:

CleanWipes are available in 4 versions:

KIWO CleanWipes EL 7660

Cleans misprints, stencils, squeegees, tools and machine parts from SMD adhesives, solder pastes, solder resists etc. Good dissolving power, slow drying.

KIWO CleanWipes EL 7860 IPA

Cleans pastes, adhesives and other contamination swiftly and without residue from work tables, machine parts, stencils and tools. Fast drying.

KIWO CleanWipes EL 7960 UNI

Removes different kinds of contamination from sensitive metal or plastic surfaces. Mild cleaner with good drying properties.

KIWO CleanWipes EL 8160

Water-based, 1-phase medium which removes printing pastes from stencils, misprints, squeegees and tools. Pleasant odour.

The original box contains 12 dispensers with 60 wipes each.

See for yourself and ask for a sample dispenser:
